BANDI KARTHIK

COMPUTER SCIENCE & ENGINEERING GRADUATE

Godavarikhani, Telangana • +91 7095851580 • bandikarthik145@gmail.com

Professional Summary

Computer Science and Engineering graduate with an 82% B.Tech aggregate and practical skills in Java, JavaScript (ES6+), SQL, HTML5 and CSS3. Strong foundation in Object-Oriented Programming, Data Structures & Algorithms, DOM manipulation, responsive web development and relational databases. Earned an A Grade (82.5%) in Core Java Programming and currently pursuing Full Stack Java Development training. Seeking an entry-level Software Engineer role to apply programming, database and application-development skills.

Technical Skills

Programming	Java • JavaScript (ES6+)
Web Development	HTML5 • CSS3 • Responsive Web Design • DOM Manipulation • Web APIs • Flexbox • CSS Grid
Database	SQL • Relational Database Fundamentals • Structured Queries
Core Concepts	Object-Oriented Programming • Data Structures & Algorithms • SDLC Basics

Academic Projects

Movie Ticket Booking Web Application

Technologies: HTML5, CSS3, JavaScript (ES6+), DOM Manipulation

- Developed an interactive seat-mapping interface using JavaScript DOM manipulation and state tracking.
- Implemented real-time ticket pricing calculations based on showtimes and user selections.
- Added client-side validation using JavaScript objects to maintain consistent application state.

Food Restaurant Ordering Web Application

Technologies: HTML5, CSS3, JavaScript, Flexbox, CSS Grid

- Developed a responsive ordering interface using viewport-aware layouts without heavy external frameworks.
- Implemented dynamic sorting and filtering for real-time inventory display.
- Applied Flexbox and CSS Grid to create structured, responsive page layouts.

Training & Certification

Core Java Programming Certification

Jawaharlal Nehru Council for Technical Education (JNCTE) | Hitech Computer Education • Jun 2025 – Aug 2025

- Achieved A Grade with 82.5% overall — Theory: 80/100; Practicals: 85/100.
- Applied core OOP concepts including inheritance, abstraction, polymorphism and multithreading.

Full Stack Java Development Training

Teks Academy, Hyderabad • Ongoing

- Advancing through backend development, code modularity and relational database management using SQL.
- Applying architectural concepts under technical mentorship to build clean, maintainable application logic.

Education

B.Tech. — Computer Science & Engineering Chaitanya Deemed to be University, Hanamkonda	82% • 2026
Intermediate — MPC RD Junior College	73% • 2022
SSC — 10th Class Telangana State Residential School, Velair Boys	GPA 9.8 • 2020
